

COGR Committee Portfolios

Each Committee is responsible for regulatory reform efforts, both proactive and reactive, in its areas of expertise. Committees are also responsible for responses to notices for comment, such as those in the Federal Register, addressing emerging issues, and conducting special studies as needed, all in their areas of expertise. Some issues, such as Research Security, will involve more than one committee.

COGR Committee Members

Research Security & Intellectual Property (RSIP)	Costing & Financial Compliance (CFC)	Contracts & Grants Administration (CGA)	Research Ethics & Compliance (REC)
Questions? Contact COGR RSIP Director Kevin Wozniak	Questions? Contact COGR CFC Director Cindy Hope	Questions? Contact COGR CGA Director Krystal Toups	Questions? Contact COGR REC Director Kristin West
